Position: TENG6719A (Undergraduate Research Assistant)

Questions about the position can be directed to Professor Shawn Newsam (snewsam@ucmerced.edu).
2016 Summer Internship Program

The City of Santa Monica is pleased to provide to current students (enrolled in an accredited college/university) a challenging opportunity to work in a local government engineering office while assisting with innovative & significant projects. Interns must:

- be students in good standing at an accredited college or university
- maintain full-time student status (minimum 9 semester units)
- have major course work in Engineering, Construction Management or a closely related field at a University, College or related program.
Summer Opportunities

Throughout the program the Human Resources department hosts numerous luncheons and workshops on a variety of topics. During these meetings, interns will be provided with:

- An overview of career opportunities in the public sector.
- A chance to learn about projects being undertaken by other internship program participants.
- A congratulatory end-of-program luncheon for participants and supervisors.

Application Period:
January 19, 2016 - February 12, 2016

Notifications:
Late March through early May

Apply at:
http://agency.governmentjobs.com/santamonica/

Program Start Date:
June 13, 2016

Program End Date:
August 4, 2016
Summer Opportunities

Summer Employment at UC Berkeley

Summer employment opportunities at UC Berkeley for students who have a strong interest or background in STEM. Small non-profit based out of Oakland, CA (http://www.lpfi.org) that works towards bridging the education gap and alleviating the disparities for low-income first generation students of color to not only graduate from college, but also pursue careers in STEM related fields.

Position is looking to hire a team of RA’s this summer. Looking specifically for people with a background or interest in STEM.

Below you will find more information about the positions:

UC Merced is currently looking for a CRM Administrator & Applications Programmer

The Customer Relations Management (CRM) Administrator & Applications Programmer, at UC Merced, will build tools that will support prospects, applicants, faculty, undergraduate students, summer session, and extension programs on and off campus. The Administrator will help with implementation and training for all Enrollment Management departments. Incumbent will organize, manage, & prioritize responsibilities in a self-directed, team-oriented environment.

The CRM Administrator & Applications Programmer will be responsible for oversight, maintenance, and administration of CRM to various departments on campus. This includes helping with workflow issues, training staff, managing roles for staff in the CRM, data management, app development and/or application implementations. The initial planning and implementation of the CRM to each department will be a major responsibility of the Administrator & Applications Programmer. Writes reports from the data warehouse using tools such as Cognos to enable staff to make data informed decisions within Enrollment Management.

Applies professional programming concepts for small to medium-sized projects or portions of larger projects. Resolves a variety of programming design and implementation issues. Works on programming assignments of moderate scope where analysis of situations or data requires a review of a variety of factors. Evaluates software for purchase and integration with SIS and CRM systems in the Division of Enrollment Management (DEM). Development responsibilities for all software utilized within DEM. Prepares documentation and updates documentation.
